UN CLIMATE CHANGE CONFERENCE

CLIMATE CHANGE AND ENERGY

United Nations

Framework Convention on
Climate Change

FCCC/CP/2015/L.9

Distr.: Limited
12 December 2015

Original: English

Conference of the Parties

Twenty-first session

Paris, 30 November to 11 December 2015

Agenda item 4(b)

Durban Platform for Enhanced Action (decision 1/CP.17)

Adoption of a protocol, another legal instrument, or an
agreed outcome with legal force under the Convention
applicable to all Parties

ADOPTION OF THE PARIS AGREEMENT

Proposal by the President

Draft decision -/CP.21

The Conference of the Parties,

Recalling decision 1/CP.17 on the establishment of the Ad Hoc Working Group on
the Durban Platform for Enhanced Action,

Also recalling Articles 2, 3 and 4 of the Convention,

Further recalling relevant decisions of the Conference of the Parties, including
decisions 1/CP.16, 2/CP.18, 1/CP.19 and 1/CP.20,

Welcoming the adoption of United Nations General Assembly resolution
A/RES/70/1, "Transforming our world: the 2030 Agenda for Sustainable Development", in
particular its goal 13, and the adoption of the Addis Ababa Action Agenda of the third
International Conference on Financing for Development and the adoption of the Sendai
Framework for Disaster Risk Reduction,

Recognizing that climate change represents an urgent and potentially irreversible
threat to human societies and the planet and thus requires the widest possible cooperation
by all countries, and their participation in an effective and appropriate international
response, with a view to accelerating the reduction of global greenhouse gas emissions,

Also recognizing that deep reductions in global emissions will be required in order
to achieve the ultimate objective of the Convention and emphasizing the need for urgency
in addressing climate change,

Acknowledging that climate change is a common concern of humankind, Parties
should, when taking action to address climate change, respect, promote and consider their
respective obligations on human rights, the right to health, the rights of indigenous peoples,

GE.15-21930(E)

Holding the increase in the global average temperature to well **below 2°C** above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5°C above pre-industrial levels

..... communicate a nationally determined contribution (NDC) **every 5 years**

..... approaches shall aim to:

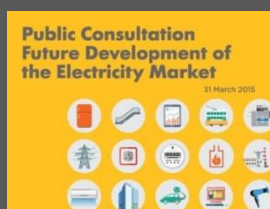

- Promote **mitigation** and **adaptation** ambition;
- Enhance **public** and **private participation** in the implementation of NDC; and
- Enable **opportunities for coordination** across instruments and relevant institutional arrangements.

The Paris Climate Conference
achieved positive outcomes by laying down
a clear direction and objectives for global co-
operation to address climate change.
To this end, **the Government will
take forward mitigation
measures proactively**

**The Chief Secretary for
Administration will chair an
inter-departmental committee**
to steer and coordinate
mitigation, adaptation and resilience work
to tackle climate change

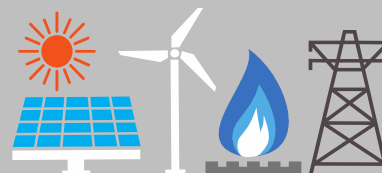

Future development of Electricity Market

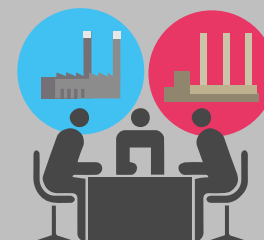

Scheme of Control Agreements

Energy
Saving

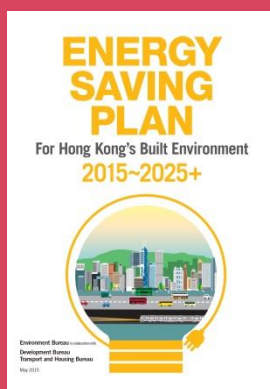

Renewable
Energy

Permitted Rate
of Return

Energy Saving Plan

Mandatory Energy Efficiency Labelling Scheme

Promote a low-carbon lifestyle in the community

NATURE CONSERVATION

Control Trade in Ivory

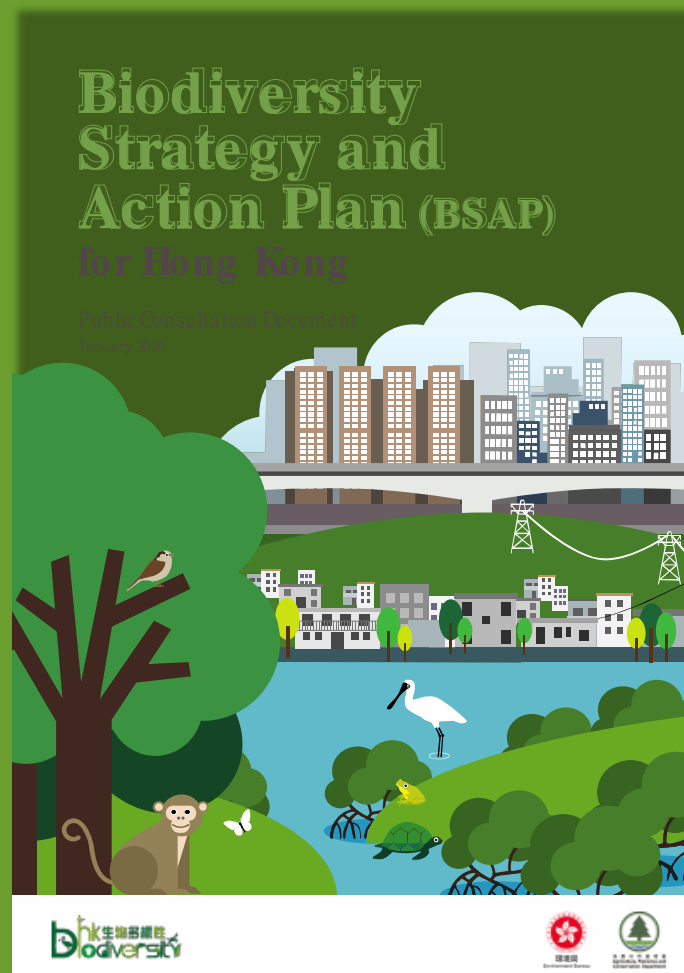

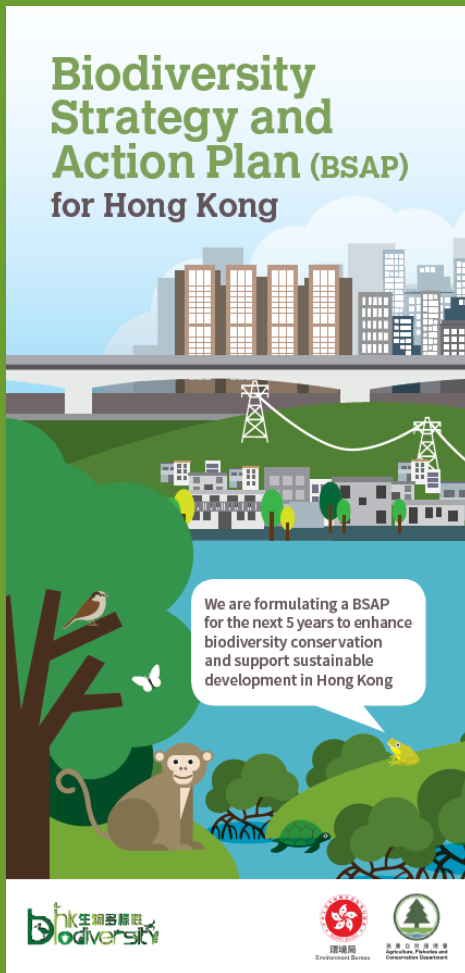

- Initiate legislative procedures to ban import / export of elephant hunting trophies

- Actively explore other appropriate measures:
 - ✓ Further import/export ban;
 - ✓ Phase out local trade;
 - ✓ Increase penalties

- Continue to strengthen enforcement and take vigorous actions against smuggling and illegal trade

Biodiversity Public Consultation

Earmark additional resources for taking forward action items

WASTE MANAGEMENT

Reduction at Source

	Municipal solid waste charging 	Construction waste charging 	Plastic shopping bags 	Waste Electrical and Electronic Equipment (WEEE) 	Glass beverage bottles 
Completed	SDC submitted recommendation	Reported the review	Full implementation of PSB charging	Amendment bill introduced; WEEE treatment and recycling facility funding approved	Amendment bill introduced
Underway	Inter-departmental working group	to enhance fly-tipping control	Publicity, education & enforcement	Bill under scrutiny; facility under construction	Bill under scrutiny; collection network being extended
Next Step	\$50M for community involvement programmes; to complete all preparatory work	To raise the disposal charges in 2016/17	To sustain publicity and enforcement	To complete all preparatory work	To complete all preparatory work

Food Waste

Food Wise Eateries

咪咗嘢食店

Food Wise Eateries

~450

eateries participated

Surplus food redistribution

approved
\$15 million
for NGOs

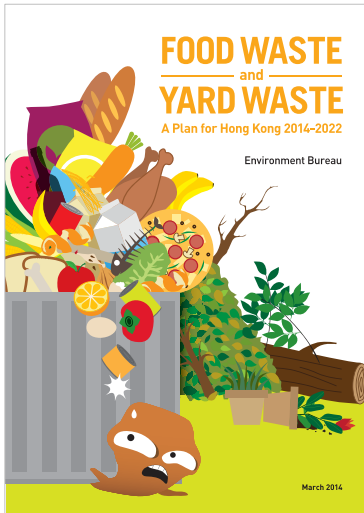

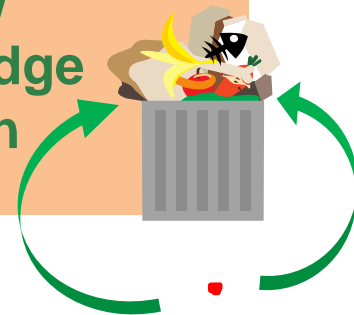

OUTF 2

Use capacity of anaerobic digestion at existing sewage treatment works for

Food Waste/
Sewage Sludge
Co-digestion

Recycling

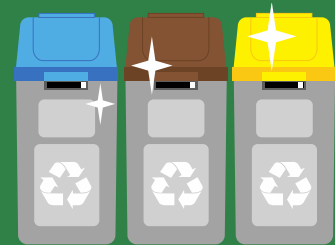

Recycling Fund

launched October 2015
with dedicated scheme
for small-scale projects

Clean recycling

promote at community
level through series of
publicity and educational
activities

Community Green Stations

- 2 commissioned
- 11 being implemented
by phases
- Site search/planning for
5 more

Regulate recycling of waste cooking oils

- Register collectors,
disposers and exporters
and require record-keeping
- Strengthen legislative
control

Waste to Energy

1st Organic Waste Treatment Facility

under construction and to be commissioned in **2017**

Integrated Waste Management Facility Phase 1

project approved and to be commissioned around **2023**

Sludge Treatment Facility

commenced operation in **April 2015** and 2MW of surplus power is estimated to be generated when throughput reaches 2000tpd

~**29,000m³**

per hour of **landfill gas** being collected

Long Term Waste Facilities Planning Study

Based on the concepts of a circular economy and “smart-city”, the study will determine the additional waste facilities and technologies needed up to 2041 to support sustainable development

Maximize resource recovery from waste

Optimize synergy of waste management technologies and land use

4 BROAD OBJECTIVES

Minimize vehicular traffic for transportation of waste

Minimize untreated MSW and unsorted construction waste to landfills

ENVIRONMENTAL QUALITY

Air Quality, Water Quality, External Lighting
and Restored Landfill Revitalisation

Air Quality Monitoring Results from 2010 to 2015

Overall continued improvements have been recorded

Station		2010	2015 [^]	% Difference 2015 vs 2010
Respirable Suspended Particulates (RSP)	General	45	38	-16%
	Roadside	60	45	-25%
Nitrogen Oxides (NO _x)	General	94	74	-21%
	Roadside	318	228	-28%
Nitrogen Dioxides (NO ₂)	General	52	46	-12%
	Roadside	117	99	-15%
Sulphur Dioxides (SO ₂)	General	12	9	-25%
	Roadside	10	8	-20%
Ozone # (O ₃)	General	39	45	15%
	Roadside	n/a	19	46%*
Fine Suspended Particulates (FSP)	General	n/a	25	-24%*
	Roadside	n/a	30	-21%*
Carbon Monoxides (CO)	General	693	665	-4%
	Roadside	1066	743	-30%

Increase in ozone is mainly contributed by regional pollution and the reduction of NO_x emissions at roadside

[^] 2015 data are preliminary figures

Air Quality

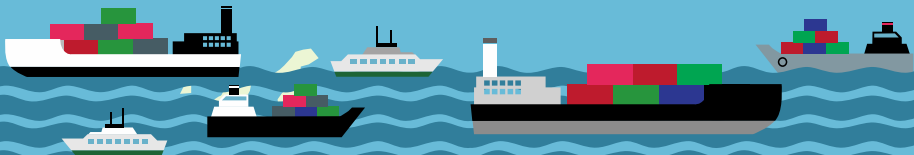

Cooperation

Marine ECA@PRD

Collaborate with Mainland
to set up a marine
emission control area in
the PRD Region

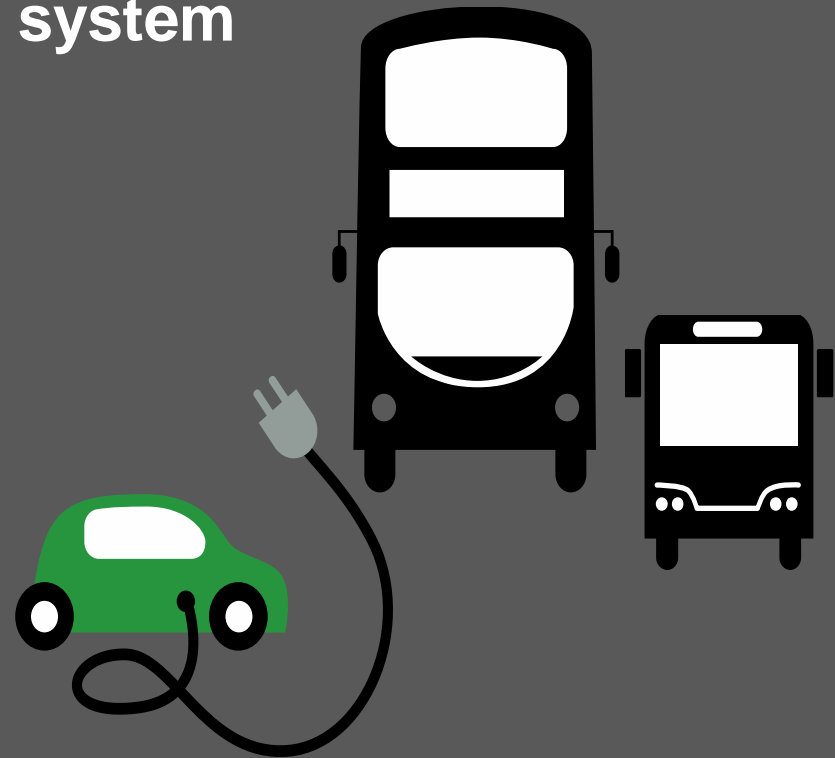

require ocean going vessels to
use low sulphur fuel ($\leq 0.5\%$)

- while berthing in PRD ports progressively from **2017**
- in the PRD marine ECA from **2019**

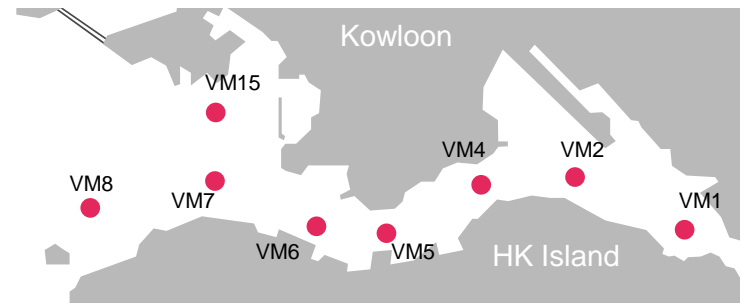

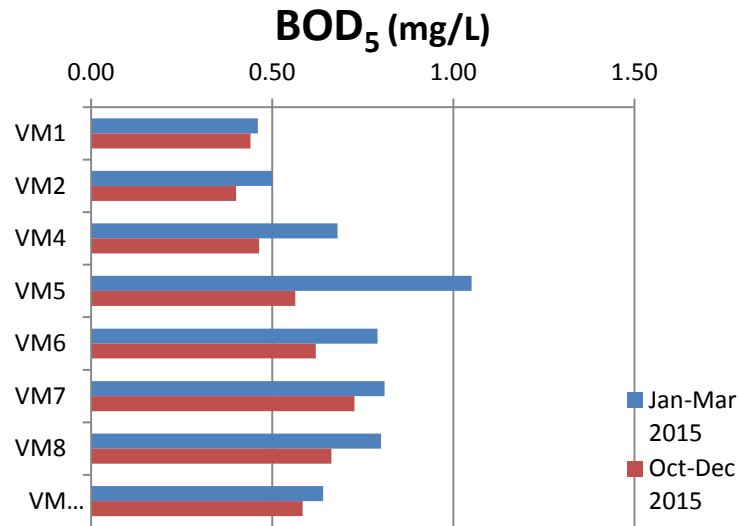

EV Promotion

Focus our efforts in
promoting the use of EV
in public transport
system

Water Quality of Victoria Harbour

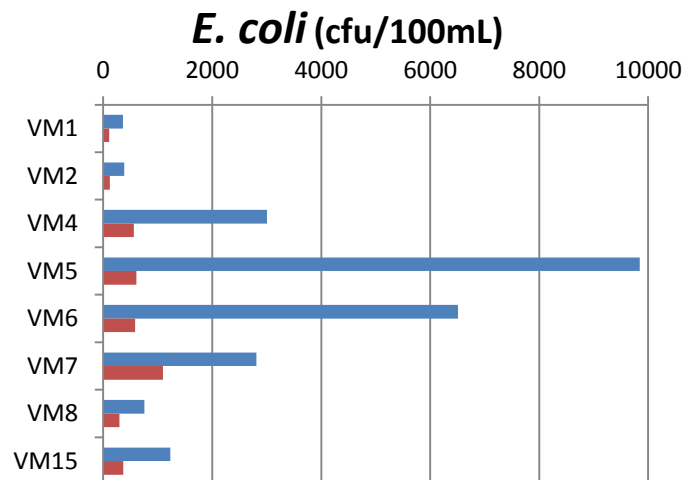

Harbour Area Treatment Scheme Stage 2A

Comparing the water quality between the beginning and end of 2015,

BOD ↓ **20%**

E.coli ↓ **74%**

Water Quality of Victoria Harbour

An aerial photograph of Victoria Harbour in Hong Kong. The image shows the dense urban skyline of Hong Kong, with numerous skyscrapers and buildings. The harbour water is a deep blue, and the surrounding hills are green. The sky is clear and blue.

Promote
Water Friendly Culture

Harbour Area Treatment Scheme Stage 2A

completed in end 2015

Urban Coastal Water Quality Study

Study coastal water quality and pollution sources

To devise improvement plans and schedules, enhance the long term leisure and recreational values of the urban coastline of Victoria Harbour; study to commence in early 2016

Charter on External Lighting

First-ever charter to
take effect in **April
2016**

Signatories pledge to
switch off lighting
installations of decorative,
promotional or advertising
purposes affecting the
outdoor environment at
**11p.m. – 7a.m. or
midnight – 7a.m.**

Restored Landfill Revitalisation Funding Scheme

Batch I is open for application until **29 Apr 2016**

Public Consultation on the
Future Development of the
Electricity Market
